Gibson us. Secretary of Defense u.S. and united States
      Attorney General Case No. 04-3119

Clerk and Court,
      I have been "toled" that the week before Dec/26/2004
united States Space Center, Send up the bigges News
Rocket, an Astrophysic and Geophysic ~~special~~ earth
orbiting [unit.] That was [Tested.] Did united States
do This. and did SomeThing other natral force
be at work.
      Please Read my 2 page Report and add it to
      my Case.

      united States constitutional mashal Jeffrey Gibson

      Please Note This is one Time I would Hope
      That is a natral force and Not a
      Astrophysic, geophysic Space firing unit.

[Earthquake Dec/26/2004] [Page 1] Jeffrey Gibson
1916 Franklin Ave
Harrrsbug P.A 17109

India ocean. Rotional moovement of unisuversal
galayars and Solor System. The Earth.
may have Rotion in to one.

(1) a Super Slow moving metor, astor, Spaceal energy of
matter mass and or Solar gases. ~~Obn~~ an mosgent Super
gas ball, Not in size of Spaceal area but in Total
energy per mass. That was Send off by our Sun.

2) an unisuveral out Spaceal energy and inter normal Spaceal
area gas ball. That was made in or out Side the
unisuveral spaceal area. That Never moved in to the
Earth ⟶unisuver ⟶galaxar moved in to it.

3) an Comis energy Spaceal mass and matter ball or area That
is moving at or not. may have be puted in to the Earth
by a Earth natral door opening to the India ocean Dec
23 to 26. 2004. Give a normal earthguralce [Super energy.]

1) The Earth has natral earth doors that open each day and
night 7to21minus. or longer. birds like Ridons and whales
in others use then. Natral Time doors open every 40 min,
unisuveral doors every 11 to 33 min. per total earth rotion.
all natral doors can and do open at Earth to Earth at
ime and Earth to unisuver and Soorn or ⟶

Earthquakes Dec./26/2004] [Page 2]   Jan/2/2005
India Ocean   Jeffrey Gibson
                                           1916 Franklin Ave
                                           Harrisburg PA 17109

(5.) an energy Spaceal and or, matter and mass that moves
    at a Super Slow Speed, That is putted in to a
    inter Spaceal nutral door.

rmal   } ← / inter Spaceal inter layer Just
ace   before total inter Space.
                        → Super Slow moving, ball or area of
                          Spaceal energy, mass, gases, and matter.
                          That has been puted in to Inter Spaceal outer-
                          layer, but Not total in to Inter Space
                          [Equal total put and pill — No movement.]
) This ball or area of Spaceal energy, gases, matter
                    can not be Seen. [or] look at.
                    ~ outer inter Spaceal layer Just below normal
                      Space.
    as the unisveral rotion and galaxar and Solar System
    rotates. The Earth each 100 years or more Come in to
    One or more Spaceal energy ball or area.
    The Earthquake Dec/26/2004 India ocean was Super
    Power. Note No wave Hit the South area in
    the India ocean. and South Pole.
                                African

Work page on Equal Balance Rotion

ped the (1) One to 4̶0̶ ~~40~~ pages on what did ~~xxxx~~ and could have
thgarke ~~xxxxxxxx~~, in India Ocean. Reports, on Astrophisyic
     and geophisyic maps on the cerea 24 hours before and
   On that days of.

(2) Super slow moving Something 4 to 12 pages
     The earth may have 100s to millions of them around each day.
(3) unisveral outer spaceal energy and layers of normal
     Space and Inter Space. 3 to 4 pages

(4) Computer Art make up, one on each part of the
           work and or Just one Computer move.
     Comisic
(5) ~~xxxx~~ energy 1 to 2 pages ?
                                                      °
(6) Earth normal doors [1 to 3] Time doors, and unisveral
     doors (note this will ___each___ Show that planets and unisver is liveing State.
(7) Equal balance Rotion 1 to 7

(8) Counter balance Spaceal area Rotion 1 to 3 pages un ieda
     only.][comsic energy Could it be outer layers of Inter Space
(9) unisveral to unisveral normal doors.

10) normal doors Theory or iedas how to open them and use them
       To move from one area of earth to other and so on.
11) Robins and whale use netral earth doors, what others.

Jeffrey Gibson   Jan /12 /2004

(12) Run a 100 year history (Ocean) as to what may hade been. Ocean wave graveational earth points.
and moon and other plancter and Solar actions 7 days before Dec /26/2004 Indla Ocean. [look in to Japane Shiping war 2. on and around that area of the ocean. and a Total earth geo-graveational maps 30 days before and on that day.

(13) The Total energy per 4 parts of earths graveational feilds, as to Reports of peoples normal weight being great per mass or less per mass. Then Run a Computer-mapping on all lighting ~~Storms~~ Hits on Dec /26/2004 around the earth. Could the earthquake Dec /26/2004 power open 11 to 40 or less earth to earth to Time doors and earth to unisveral doors.]/ and or Send Spaceal energy Through and un-natral earth, Time, unisveral door.]

(14) Run a Computer math arc lines to the ~~~ earthquake Center and Then over layer, it with all comsic Rays, Solar Spaceal energy on and in the earths ~~~ Orbiter around are Sun, were their Small or big Sun Spots. Dec /23/ 24 / 25/ and 26 / 2004.
note This Total earthquake force may have open Some doors up to 11 to 40 days. Should This "be. Comsic Rays may Show then. in . State of open.

Jeffrey Gibson

universal Rotation

Jan/25/1989

In this theory I will show How our
~~universe~~ universe was made and how
it rotates,

"Notes"

$esm = (g) + e + w = smc$

energy times the Space times the mass of
pure energy and Space (pure Space, and pure energy
are the two Thing that are, out side our
universe.) will equal the graveational energy
added with the graveational wave or fields of
graveilty.
That will give the total power of the "universe"
that was made from the first part of the theory
and that will equal the area of Space, ~~and~~ times
the matter of mass times the given Speed.
In which the graveational energy will make
Rotation and the energy mass and or matter
mass energy, (mov ment) or give off
power to rotate in that area of Space area.

Jeffrey Gibson

$$esm = (g) + e + \omega = Smc$$

(1) e = energy, be that energy pure or energy that is made within the universe.

pure energy is a given size and shape of energy. ~~But not~~ energy ~~no~~ matter, how big or Small much take up space area and Space.

(2) S = Space, Their are 3 or more kinds of space.

(A) The Space outside our universe which is pure Space. Total pure Space.

(B) Space, the inside of the universe, of which as mass of matter and energy mass matter.

(c) Space, inter Space The Space area inside the ~~S~~ Space in a universe, but ~~not~~ Not pure Space. Total pure Space have no inter space area.

(3) m = mass of space and energy, is when pure energy being to change in an area of pure Space. This Change mades Super pure waves of graveitly. and pulls other areas of pure energy to it. at this time another Space area is made, our universe.

equals

(4) (g) = graveational energy Space mass. as the universe was talking on a Size and shape, the graveational pure energy, but not total pure graveational energy Space mass, Is the compelet power of the universe. That give of graveilty waves or fields.

Jeffrey Gibson

Page 2

Universal Rotation.

Jan/25/1989

$$esm = (g) + e + \omega = smc$$

(5) $e + \omega$ = gravegtional energy and waves or fields inside the "universe"

(6) S = inter-universal Space that has universal "Time" fields and interspace in the Space area in the universe.

(7) m = matter of mass in the universe, be at matter of mass, all the area inside universe or all the area of "Time" in the universe and all the interspace area of the universe,

(8) c = Speed, as all of this theory Comes to equal the Speed outside of the universe, in which our universe is moveing through pure Space. "universal rotation" of space energy mass and gravegtional energy matter of mass, and the 2 kinds of "Time" The energy speed of the universe that makes in universal "Time" and sub time, Sub Time Space area and The Time area outside and around our universe. which is "Time" energy that gives and contrals the other Time area of universal Time.

This theory not only show that the universe Rotates But also that the universe has a given energy Space mass and matter

Spaceal Space math

$0+0 = 1$] should you
have Two math
give sizes it would
equal one

$0-0 = ?$] and it can
be 0. Spaceal Space area

$0 \times 0 = 3$] can be 3 or
33 Spaceal
Space area per
given space

$0 \div 0 = 11$] in normal
unisveral Spaceal
Space area can be
12.] note should the geven
size of space be greater Then
or less Then the Total it
may become a State
of + and - math.
